

PRESS RELEASE

IVECO COMPLETES DAILY DELIVERY FOR AMTRAK

Amtrak Express Parcels Ltd has taken delivery of the final 17 Iveco Daily City Trucks of its order for 126 vehicles. The vehicles have been supplied under a three year contract hire agreement with Powermarque, with delivery spread over the past nine months.

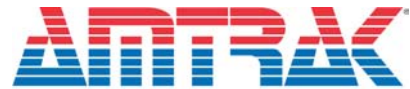

The contract with Powermarque covers the vehicles for all routine servicing and maintenance, as well as tyres and emergency roadside assistance.

The 17 Daily City Truck 35S12's will be used to support Amtrak's nationwide network which operates a fleet of 1,000 local delivery vehicles, used to distribute parcels to customers, and over 300 trunking vehicles to transport parcels between hubs and depots.

Tony Jones, Transport Manager at Amtrak, explains: "The Daily City Trucks are ideally suited to our operation and have made a positive impact on our business.

"Our customers need to know that their vital parcels and consignments will be delivered on time, every time, and so choosing the right vehicle for the job is critical," he adds.

This latest delivery will be split between the company's branches in Croydon, Norwich and Kirkcaldy.

Each of the Daily City Trucks is powered by the 116 hp version of Iveco's 2.3 litre HPI engine, which produces a peak torque of 270 Nm between 1,800 and 2,800 rev/min.

Amtrak Express Parcels

Amtrak Express Parcels is a dynamic, fast growing organisation that is a major force in overnight parcel collection and delivery both in the UK and Worldwide. It operates over 100 strategically located depots and is renowned for its outstanding quality and value for money within the carrier industry. It also surpasses the BS EN ISO 9002 Quality Standard.
